

Example
 Some authors in English literature have used the term "epic" to describe narrative, in
 connection with the epic tradition, or-epic, and the term "epic" has been used more or
 less interchangeably with "epic" in the past. However, the term "epic" has been used
 to describe the structure of the epic tradition, and the term "epic" has been used
 to describe the structure of the epic tradition.

There is a significant difference between the two terms. The term "epic" is used
 to describe the structure of the epic tradition, and the term "epic" is used to
 describe the structure of the epic tradition.

The term "epic" is used to describe the structure of the epic tradition, and the
 term "epic" is used to describe the structure of the epic tradition.
